AUDIT OFFICE, OTTAWA, August 1, 1916.

SIR,—Upon making a comparative statement of the earnings of the Inter-colonial Railway between the fiscal years 1914-15 and 1915-16 I find the following subheads of revenue used for the first time in your balance sheet for 1915-16, viz.:—

Passenger Earnings—

Sleeping cars.....	\$ 142,692 34
Dining and buffet cars.....	140,791 13
Hotels and restaurants.....	9,866 16

Freight Earnings—

Grain elevators.....	\$ 5,656 85
Transportation water line—Freight.....	50,619 83

Please let me know what account the earnings of sleeping, dining, and buffet cars were credited to in former years; also if there was any revenue in previous years from hotels and restaurants, grain elevators, and transportation, water line, and if so, what accounts were credited with it.

The revenue of the parlor and chair cars in 1914-15 was \$112,169.95 and in 1915-16 only \$35,073.49.

It is also noticed that there is no revenue from car service in 1915-16, but the sum of \$58,742.42 was received for "demurrage". Are the terms "car service" and "demurrage" synonymous?

I am, sir, your obedient servant,

J. FRASER, A.G.

The Comptroller, Canadian Government Railways.

MONCTON, N.B., August 18, 1916.

DEAR SIR,—I am in receipt of your favour of the 1st inst. in reference to difference in the classification of revenue for years 1914-15 and 1915-16.

Sleeping Cars.—In 1914-15, the revenue from parlor and chair cars and sleeping cars was credited to the operation of parlor and sleeping cars, and the balance at the end of the month was transferred to Revenue Account No. 104, parlor and chair car revenue.

Dining and Baggage Cars.—The revenue was credited to operations of cars, and balance at end of month transferred to operating expenses. On one or two occasions, there was a surplus, which was credited to miscellaneous revenue.

Hotels and restaurants.—Previous to 1915-16, we were only operating Moncton restaurant, and the balance was closed monthly into operating expenses.

Grain Elevators.—The receipts and expenses of the grain elevators were kept in outside operations, and balance at end of year transferred to miscellaneous revenue.

Transportation Water Line.—We were not operating any vessels in past years.

Car Service and Demurrage.—Synonymous, old classification gave car service and the new classification, demurrage.

The difference between the parlor and chair car revenue of 1914-15 and 1915-16 is accounted for by the fact, that in 1914-15 the revenue went into the one account, while at present time, we have separate accounts for sleeping cars, and parlor and chair cars.

Yours truly,

S. L. SHANNON.

The Auditor General.
